

# OROMED® Liquid

Fully virucidal hand disinfectant with moisturizers, vitamins, and anti-aging substances.

- ▶ Free of fragrance and colorants
- ▶ Excellent skin compatibility
- ▶ Contains anti-aging ingredients

OROMED® Liquid is an alcoholic hand disinfectant with a broad antimicrobial activity for the surgical and hygienic hand and forearm disinfection. The clear, non-sticky, and residue-free formulation is pleasant to use, dries quickly, and leaves hands feeling velvety smooth. OROMED® Liquid incorporates a unique skin protection system, made up of moisturizers, emollients, vitamins, and soothing compounds shielding even the most sensitive hands from the effects of frequent disinfection. OROMED® Liquid provides relief from dryness and irritation. The high content of antioxidants and anti-aging substances neutralizes harmful free radicals, which cause premature aging. OROMED® Liquid is free of biocidal substances, fragrances, and dyes.

## Scope of Application

- ▶ For the disinfection of hands and forearms

## Use

For hygienic hand disinfection, rub in 3 ml of undiluted solution into dry hands for 30 seconds. Follow the standard rub-in technique for hygienic hand disinfection in accordance with EN 1500. For surgical hand disinfection, rub in at least 2 x 5 ml of solution into dry hands and forearms for 3 minutes. Follow the standard rub-in technique for surgical hand disinfection EN 12791. Keep hands moist during the entire application period.
