Complete

The only kit on the market that contains absolutely everything that staff need.

Professional

Chosen by the most safety-conscious practices.

Reliable

Nothing but safe, certified materials. Protection with guaranteed Monoart® quality.

Practical disposable polyethylene apron with a comfortable fit to protect operators.

Gown with zip, mandarin collar and elastic cuffs for the total protection of the operator. Personal protective Equipment, Category III.

Antiallergic gloves with anti-slip surface and a shaped form. It stands punctures, and protects against aggressive chemicals, solvents and oils. Sterilizable in the autoclave.
